## Thanksgiving Food Safety Tips

**Clean:** Always wash your hands, cooking surfaces, fruits, and vegetables. Do not rinse raw poultry before cooking.

**Separate:** Use different cutting boards as you prepare. Don't let bacteria spread from one food to another.

**Cook:** It is the internal temperature of the food that determines if it is done. Color is not an indicator of doneness.

**Chill:** Leftovers should be put in the refrigerator within two hours of finishing your meal to stop the growth of harmful bacteria. \*USA.gov
