**If applicable, description of steps to be taken to avoid emergency use of pesticides for this problem in the future:** N / A

**Description of the possible adverse effects of the pesticide(s) as per the Material Safety Data Sheets for the pesticide(s) to be used, if available:** Harmful if swallowed, inhaled, or if absorbed through the skin. Avoid breathing vapors or spray mist. Contact may produce temporary eye irritation, or skin irritation such as rash, numbness or burning.

**Pesticide product label instructions and precautions related to public safety:** Avoid contact with skin or eyes. Do not contact until material has dried. If contact occurs, wash with soap and water.

**NOTE: As required by law, we are advising you of the following statement:**

The Office of Pesticide Programs of the United States Environmental Protection Agency has stated: "Where possible, persons who potentially are sensitive, such as pregnant women, infants, and children, should avoid any unnecessary pesticide exposure."

**REMEMBER:** Whenever a non-low impact pesticide is used on school property there is also a Restricted Entry Interval (REI) that begins when the pesticide application ends. This Restricted Entry Interval last for seven hours unless the product label uses NUMERIC LANGUAGE, e.g., 4 hours or 12 hours; directing a longer or shorter period of time for Restricted Entry. If the product label does not discuss Restricted Entry the period of time defaults to seven (7) hours.
